DETAILED ACTION

1. The response the Election/Restriction requirement mailed September 7, 2001 is acknowledged.

Claims 2-8 and 18-20 were canceled.

Claims 21-124 were added.

Claims 1, 9-17 and 21-124 are pending.

Applicant elected the inventions of new claims 21-124. However, the newly added claims (claims 21-124) are subject to a further restriction requirement.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 21-37, 46-63, 72-89, 98-115, and 124, drawn to antibodies that bind to SEQ ID NO: 2, and to hybridoma cells, classified in class 530, subclass 387.1; class 435, subclass 326.
- II. Claims 38-45, 64-71, 90-97, 116-123, drawn to methods of detecting a colon specific protein, classified in class 435, subclass 7.1.

3. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the antibodies of Group I may be used in in vivo methods of

Art Unit: 1642

treatment. An in vivo method of treatment is a materially different method than the in vitro method of detection of an antigen.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
